**Medical Wave Announces National Distribution Agreement for  
FDA Approved Focused Shockwave Device  
DUOLITH® SD1 T-TOP by STORZ Medical**

**FOR IMMEDIATE RELEASE**

**[Freehold, New Jersey]** – Medical Wave is excited to announce the availability of the state-of-the-art focused shockwave device from Storz Medical, the Duolith SD1 -T-TOP. A non-invasive treatment option for patients

The DUOLITH® SD1 -T-TOP by STORZ MEDICAL is indicated for extracorporeal shock wave treatment (ESWT) of heel pain due to chronic proximal plantar fasciitis. The effectiveness of the device and of ESWT in general have been demonstrated in clinical studies.

Storz Medical has received the PMA approval (premarket approval) of the US Food and Drug Administration (FDA) for the DUOLITH® SD1 (Class III)\*. This means that the innovative focused shock wave therapy system has now the FDA's highest level of approval. It is approved in the USA for the treatment of heel pain due to chronic proximal plantar fasciitis\*\*. As a result of the FDA approval, Storz Medical and its partners are now able to begin with the market launch of the DUOLITH® SD1 in the USA. The PMA approval of the device in the USA is also important for other countries as it signalsizes that the DUOLITH® SD1 can be trusted when treating chronic plantar fasciitis.

The DUOLITH® SD1 -T-TOP generates focused shock waves (F-SW). The efficiency of this modern ESWT device derives from the powerful and individually selectable energy range. The device's shock wave source is equipped with the time-tested STORZ MEDICAL cylindrical coil and offers a constantly high energy dynamic in the entire focus zone. Intuitive and easy to use

The DUOLITH® SD1 -T-TOP, focused shockwave device by STORZ MEDICAL is now available through Medical Wave to healthcare professionals throughout the United States. When acquiring the device from Medical Wave a comprehensive service and support program is provided. Healthcare practitioners are provided training, education, technologically advanced care with 24/7 support, exclusive access to world-renowned healthcare advisors, marketing support and everything needed to implement focused shockwave into their practice.

"We are excited to add focused shockwave to our current product line. We now have the ability to provide physicians the option for focused shockwave along with our current line of Storz pressure wave devices to meet all of their clinical needs". Said Robert DeWaters, President and CEO of Medical Wave.

To get additional information about focused shockwave or to acquire the DUOLITH® SD1 -T-TOP by Storz Medical device contact an expert in the technology at Medical Wave (800) 595-0577, [info@medicalwaveus.com](mailto:info@medicalwaveus.com) and read the [brochure](#).
